Week 2: August 23rd - August 27th

Parent Note: We made it through our first week! Please encourage your student to give their best effort and attempt each textbook question but they may also bring questions to class from their textbook assignments. There is time at the beginning of each class for me to answer these questions.

As always let me know if you have any questions.

Central Class Day 1: Chemistry of Life

Satellite Day 1:

- Complete Lesson 2 vocabulary cards. (10 minutes)
- Begin on Alternative Assessment for Lesson 1 by making selections and getting started on at least 1 short assignment. (30 minutes)
- Complete textbook pages 15-17, no #4. (20 minutes)

Central Class Day 2: Chemistry of Life

Satellite Day 2:

- Work on Alt Assessment for Lesson 1. Re-read the directions for each mini-project and use the rubric today to make sure you have included all necessary parts in each assignment. Try not to exceed the time limits, these are meant to be short assignments. These are Due 8/30. (60 minutes)

Satellite Day 3:

- Finish your alternative assessment for Lesson 1. If you have already finished, use the rubric to make sure you have all necessary parts. (40 minutes)
- Complete textbook pages 18-20. (20 minutes)
